

Modular

The USA Series safe deposit boxes, incorporate the most desired features in today's marketplace. Continued growth and expansion requires financial concerns to be ready to move, expand, consolidate, provide mini offices and change operations overnight. The system's modularity makes the most use of vault space with configurations to meet your needs.

Secure Construction

The casing is 1/4" aluminum nosing surrounding entire nest with galvanized steel outside housing.

Doors

Double lock doors with stainless steel clad finish on a solid composite featuring changeable number plates with optional double key changeable locks, providing flexibility to withstand today's lock pulling technologies.

Bond Boxes

Heavy duty, metal construction. Top opening 3/4 length lid with hasp fastener.

Hinge System

The USA Series features brass anodized Safe-T hinges which are self aligning hinges to insure a solid fit for each door.

Locks

The USA series features brass anodized double nose, UL listed 5400 style locks.

Numbering System

The USA Series offers a choice of numbering plate styles to match existing installation and placement. The USA Series door is designed to accept a flush number insert placed over the lock or placed in the center of the door, or a small number plate or a "standard" number plate in these areas. Simply advise at time of ordering. The standard number plate is a silver with black numbers in a gold field.

Installation

The USA Series is available for immediate delivery. Standard size, self aligning construction and self aligning hinges allow for quick installation; instant cash flow and customer retention.
